

Web Developer

Do you have a strong work ethic and are passionate about education and community programs? Be part of a team where you can work for a non-profit organization and make an impact on students to learn more! You can make a difference in the world by giving students the opportunity to access free and affordable educational services!

About Vancouver Region Educational Services:

Vancouver Region Educational Services (VRES) is a non-profit organization offering accessible and meaningful learning experiences to communities across the Vancouver Region. We support growth through educational programs, youth initiatives, and community partnerships that encourage skill development, confidence, and creativity.

About this opportunity:

As a Web Developer at VRES, you will help support the development, design, maintenance, and improvement of our organizational website. You will collaborate with program and marketing teams to enhance user navigation, online registration processes, and information accessibility. This role allows you to apply your technical expertise while contributing to a mission-driven organization focused on community-based learning.

Key responsibilities are as follows:

- Maintain and update website content to ensure accurate program, event, and organizational information
- Design and implement user-friendly features that improve online navigation and accessibility
- Collaborate with marketing teams to integrate promotional materials into the website
- Support the development of online program registration pages and scheduling components
- Troubleshoot and resolve website performance, security, and functionality issues
- Assist in creating digital content such as visual banners, landing pages, and layout enhancements
- Provide technical support for programs that use web-based tools or learning platforms

- Contribute technical solutions that support outreach, growth, and community engagement
- Support virtual and in-person learning initiatives as needed across Metro Vancouver

Requirements:

- Knowledge of UI/UX design, HTML, CSS, and JavaScript
- Familiarity with website builders such as WordPress, Wix, or other platforms
- Strong problem-solving skills and attention to detail in coding, design, and layout
- Ability to work 35 to 40-hour work weeks, including evenings and weekends based on assigned shifts
- Mobility to commute to program locations across Metro Vancouver when needed
- A valid Standard First Aid with CPR-C certification and a satisfactory Vulnerable Sector Check are required (not reimbursed). These may be obtained after securing the role but must be completed before the first day of work
- Candidates must be between 15-30 years of age, a Canadian citizen/permanent resident/refugee protection status, and have a valid SIN.

Assets:

- Experience working with APIs, website databases, or custom-coded features
- Graphic design, branding, or digital media experience
- Fluency in more than one language (reading, writing, speaking, listening)
- Access to a car and a valid Class 5/7 British Columbia driver's license

This is a fully in-person position. Salary ranges from \$18-26/hour, dependent on experience, skills, education, and role.
